

## VERT 30 minute training sessions 2015

Vertual are pleased to announce a series of 30 minute online training sessions for VERT. The timetable for the sessions is below. Emails will be circulated with available dates and times before the sessions take place. Sessions are free to attend and are available to all VERT users. You need only an internet connection and phone line or PC headset.

Month	Session	Trainer
<b>January</b>	Making full use of the Virtual Presenter tool.	Jan Antons
<b>February</b>	VERT for anatomy training – Using the available tools.	Tom Swayne
<b>March</b>	Exploring the dose features for VERT	Jan Antons
<b>April</b>	Using VERT as a tool for patient information.	Tom Swayne
<b>May</b>	Beam display and using the current version of VERT to compare plans.	Jan Antons
<b>June</b>	VERT for continuing education	Tom Swayne
<b>July</b>	Using the VERT Touchscreen features.	Jan Antons
<b>August</b>	Putting VERT Physics to use – Practical applications.	Tom Swayne
<b>September</b>	Using VERT to demonstrate basic Radiation Therapy principles.	Jan Antons
<b>October</b>	Using VERT to practice patient set up for Photon and Electron plans.	Tom Swayne
<b>November</b>	Integrating VERT into your teaching practice.	Jan Antons

The latest software version will always be used for the sessions. Where our VERT customers are operating an older version of software some of the displayed features may not be available on your system. Where the specified trainer is not available an alternative trainer may deliver the sessions.
